Karachi, Pakistan | +92 319 1150330 | aleemkhan2405@gmail.com | github.com/Ameel-27

PROFESSIONAL SUMMARY

Results-driven Software Engineering student with strong expertise in **full-stack development**, specializing in **backend systems**. Proficient in building scalable web applications, implementing robust APIs, and integrating machine learning models. Seeking challenging opportunities to contribute technical skills and deliver high-quality software solutions in a dynamic environment.

EDUCATION

Bachelor of Software Engineering

Expected Graduation: June 2027

Bahria University Karachi Campus, Karachi, Pakistan

CGPA: 3.83/4.0

- Recipient of Prime Minister Laptop Scheme (2025)

TECHNICAL SKILLS

Programming Languages: Python, C# (Fluent), Java

Frameworks & Libraries: .NET, Flutter, React, TensorFlow (DistilBERT)

Databases & Tools: MySQL, SQL, Git

Core Competencies: Backend Development, Full-Stack Development, Problem Solving, Deadline-Driven

PROJECTS

Book Publishing System & Store

Developed a full-stack web application that automates the complete book publishing workflow: manuscript submission by authors, review/approval by editors, and PDF delivery to customers upon purchase. Implemented role-based access control with secure user management and backend logic.

Technologies: PHP, MySQL, CSS, JavaScript

Emotion Detection & Music Recommendation System

Built an intelligent system that analyzes user text input to detect emotion and recommends 3 matching songs based on detected mood. Utilized TensorFlow's DistilBERT model for accurate text-based emotion classification and backend recommendation logic.

Technologies: Python, TensorFlow

DSA-Based Music Player

Designed and implemented a feature-rich desktop music player using core Data Structures and Algorithms concepts only. Key implementations include Stack for recently played tracks, Doubly Linked List for song navigation, Binary Search Tree for playlist management, Interpolation Search, Fisher-Yates shuffle, and Merge Sort.

Technologies: C# Windows Forms

ACHIEVEMENTS & CERTIFICATIONS

- Prime Minister Laptop Scheme Awardee (2025)
- Completed "Python for Everybody" specialization on Coursera (University of Michigan)
- Solved 150+ problems on LeetCode with focus on Data Structures and Algorithms
